

Joe G. Cochran

503-438-6980 joecochran@sdf.org 2485 Green Pl Arroyo Grande CA 93420

Profile

Web Developer with experience in HTML5, CSS3, JavaScript, jQuery, and Server side experience with PHP, Node.js, Rails, as well as basic Marketing and Graphic Design Experience.

Experience

FULL STACK WEB DEVELOPER, HARLO INTERACTIVE; PORTLAND, OR – MARCH 2013 - JULY 2014

Developed responsive front end experiences and MVC content management systems with the Codeigniter and Laravel PHP frameworks. Utilized Git for version control. Leveraged Angular.js for advanced CMS features. Employed modern, object-oriented PHP practices.

WEB PRODUCTION, TECHXPRESS; SAN LUIS OBISPO, CA – MARCH 2012 - AUGUST 2012

As a Web Production specialist, I was in charge of all HTML and CSS work for the company. Also created and modified PSD Comps, developed and launched email marketing campaigns, and debugged PHP when programmers were unavailable. Also functioned as overflow customer support via phone and email when our primary support agent was unavailable.

WEBMASTER, SHOESURFING.COM; SAN LUIS OBISPO, CA – OCTOBER 2009 - FEBRUARY 2012

Started as Phone/Email support, and in less than one year moved over to web department. There I designed E-marketing emails, maintained the website, coordinated software upgrades on the server side with software vendors, managed domains via OpenSRS, managed website redesigns and content updates.
